Gary,

Please see the updated tracking spreadsheet. I have also attached the following data:

SDG 55520 TCLP (TT-408, S Tank 2, S Tank 8, and S Tank 5) – partial prelims. The only outstanding data is total sulfide on S Tank 5. As you may recall, S Tank 5, was two separate matrices that would not homogenize in the lab. We have two sets of results for the total analyses. We also have two sets of results for the TCLP analyses.

If you have any questions, please let me know.

Thanks,

Kristie
